Willing to relocate: Anywhere

## Personal Details

**Industry:** Software Development

## Work Experience

### Frontend Engineer

Naeme LTD - Nigeria

December 2020 to July 2022

At Naeme, I worked full-time as a Frontend Engineer in developing, testing, and advancing the company's event application where I played a significant role as a solo engineer. My problem-solving skills and abilities to write clean and reusable codes as a task-driven developer helped me excel in that position.

• Communicated with the project owner to understand the requirements.
• Worked on the company's cross-platform mobile app as a solo engineer using amazing technologies like React Native, TypeScript, Python (Django Rest framework), Tailwindcss, React hooks form, etc; to build the app from start to finish and it performs excellently in android and IOS devices, some amazing futures includes social auth, payments, global state management, etc.
• Worked on the company's Web application using modern technologies like React.js, Tailwindcss, and PayStack to interact (AJAX) with Django rest framework backend APIs backends, wrote clean codes with best practices, and well-documented code with tests.

## Skills

• Mobile Development
• React Native
• Frontend Development
• NextJS
• TailwindCSS
• Git & Github
• JavaScript

- MongoDB

## Languages

- English - Fluent
